

PROMO-ROLLER 99

The **Promo-Roller 99** is a new addition to our range. Priced competitively for large promotional use the roller has 5 metres of fully printed super sticky tape which will remove fluff, lint, pet hairs and anything else from almost any surface. With our ability to print the whole 5 metres of the tape your logo and message will be seen for the life of the product, unlike other rollers that just have a printed wrap, which is discarded after the first use. Ideal as an on-pack offer, an in pack incentive, self-liquidator, exhibition giveaway or business gift.
